ACTIVITIES

1. Browse through the 3GPP website (www.3gpp.org) and identify what are the technical specifications (3GPP TS) that are more relevant for multimedia communications in both stage 1, 2 and 3

2. Browse through the IETF website(www.ietf.org) and identify what are the standards-track RFCs that are more relevant for multimedia communications

3. Identify what are the main challenges that the utilization of UDP for peer to peer multimedia communications poses. How can they be overcome?
